## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-4 and 6-25 contain no structure to allow for the shaft (90) being contained within the bridging member, e.g. a slot, thus the claimed device is inoperative and indefinite.

There is no antecedent basis for, "the width of the radial slot, and "the diameter of the semi-circular portion", in claim 1.

### ***Specification***

The amendment filed 4/30/05 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: pages 4-6 of the amendment, which is in reference to figs. 7-12 of the newly submitted drawings.

Applicant is required to cancel the new matter in the reply to this Office Action.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
